		16

Sec.B. GENERAL PROVISIONS OF HEALTH SERVICES IN THE AREA

Public Health Officers of the Authority. See Page 1.

Laboratory Services are provided at the Royal Salop Infirmary, Shrewsbury.

Nursing in the Home is under the control of the Local Health Authority, which is the Salop County Council.

Ambulance Services. There are two Ambulances stationed at Bridgnorth, available for short distance journeys, Tele. Bridgnorth 2303. Arrangements for long distance journeys are made through the County Authority, Tele. Shrewsbury 2626.

Hospitals. There are two Hospitals in the Borough, the Bridgnorth & South Shropshire Infirmary for general hospital work, and Innage House. Innage House is in part an institution for the care of the aged and infirm, a few beds being provided for the male sick of the Institution, and in part an hospital for female patients, mainly those not needing specialised hospital treatment. The hospital part of the Institution is under the control of Group 16, Wolverhampton Local Hospital Management Committee, and the other part of the Institution is under the management of the Salop County Council.

Bridgnorth & South Shropshire Infirmary, is now under the management of Group 16, Wolverhampton Local Hospital Management Committee and Consultants from Wolverhampton have fixed days for attending the Infirmary.

Clinics are held at the Welfare Centre of Bridgnorth as follows:-

Tuberculosis. One of the County Medical Officers for Chest diseases attends on the last Tuesday in each month at 11 am.

Orthopaedic. An after care clinic is held on alternate Mondays from 11 am to 1 pm.

Maternity and Child Welfare. Each Monday from 11 am to 4 pm.

Veneral Disease. There are clinics available at Shrewsbury, Wolverhampton and Kidderminster.

Sec. C.

SANITARY CIRCUMSTANCES OF THE AREA

Water Supplies

Rindleford Mains Supply. The quantity and quality of water from this supply has been satisfactory.

Water Analysis.

The results of the Bacteriological examinations of samples of the Borough water are:-

Tap at College House	-	Highly Satisfactory
Water from pump at Rindleford	-	Highly Satisfactory
Tap at the Institute for the Blind, Oldbury	-	Highly Satisfactory
Shallow well water at "Valrosa", Oldbury	-	Although there is no direct evidence of faecal contamination in this one sample the supply should be regarded as unsatisfactory.

Hundred House Water supply to reservoir

800 feet of 3" C.I. Watermain was laid to connect this system to the Town mains. There were also alterations done to the pipe work at the Hundred House Reservoir. This has greatly improved the water supply to that area.

Tasley Supply

The 3" C.I. Water main was extended from a tapping on the Sydney Cottage Estate 550 feet to the boundary of the Borough, from where the R.D.C. carried the main on to a storage tank at Tasley.

River Severn

The river did not overflow its banks during the year.

Stand-pipes

63 houses in the Borough are supplied by stand-pipe supply from the Town mains.

Sewerage

There were no foul water sewers laid during the year. About 160 yards of storm water overflow sewer was laid to relieve the surcharge of the sewer in Victoria Road and Salop Street. There were no alterations in the sewage disposal works.

Sec.D.

HOUSING

1. Number of houses completed during 1949

- (a) By the Council - 29
- (b) By private enterprise - 6

2. Number of houses under construction at 31st December 1949.

- (a) By the Council - 45
- (b) By private enterprise - 8

3. Total number of applications for Council houses at 31st December 1949.
- 242

Shortage of labour and materials still continue to influence the building programme, but the number of houses completed by the Council was more than the previous year, and the number under construction showed a considerable improvement.

Milk Supply (Food & Drugs (Milk & Daires) Act, 1944)

The above Act came into force on the 1st October 1949, and under it various regulations have been made, namely:-

1. The Milk & Daires Regulations 1949.
2. The Milk (Special Designations) (Raw Milk) Regulations 1949.
3. The Milk (Special Designations) (Pasteurised & Sterilised) Regulations 1949.

The principal provisions embodied in the above regulations are, briefly :-

- (a) The registration of dairy farmers and of dairy farms becomes the responsibility of the Ministry of Agriculture. Other dairy premises are still controlled by the Local Authority, and they issue dealers' licences and supplementary licences.
- (b) Fees for issue of licences are abolished.
- (c) Dealers licences for Pasteurised and Sterilised milk are now issued by the Food & Drugs Authority.
- (d) The designation "Accredited" will be abolished after the 1st October 1954.
- (e) Milk sold under a special designation shall satisfy a prescribed test, and methods of taking samples are prescribed.
- (f) The provisions of the previous Milk & Dairies Orders are re-enacted with some modifications and improvements

Registration of distributors has taken place under the new Act. The present number of distributors on the register is 9.

Ice Cream

Number of dealers who make ice-cream in the district -
Hot Mix - Nil. Cold Mix - 1

Number of samples taken for examination - Nil

Meat

Slaughtering of animals, except for casualties and pigs for private consumption, is still carried out at Wolverhampton from which centre meat is distributed to the Borough and District of Bridgnorth.

Meat and other foods condemned in the district in 1949

	Sheep Carcasses	-	17		
	Beef	-	71 lbs		
	Veal	-	1 side		
	Pig Carcass	-	1
